**for service to Broken Bone's Sam'Son.**

- (1) Breeding fee, collection and transportation fees must be paid prior to shipment of semen.**
- (2) Shipping fees are to be paid by the mare owner. The lab will determine the best shipping method and will notify mare owner.**  
The mare owner is to notify stallion owner two weeks prior to the planned breeding date and again within **48 hours** before the transported semen is to be shipped.
- (3) If additional collections are required, there will be collection and transportation charges which must be paid prior to shipment of semen.**
- (4) If the mare does not become pregnant, the breeding facility will need a letter from a licensed Veterinarian stating that: the mare is not pregnant, before additional semen will be sent.**
- (5)** Broken Bone Farms will not be responsible for incurring costs for preparing mare for breeding in the event semen is delayed or not received on the scheduled day of delivery.
- (6)** In the event the mare fails to conceive after breeding through three heat cycles the stallion owner offers the following options:
  - (a)** A return breeding will be granted (without additional stud fees) for the same mare if the mare is examined by a licensed Veterinarian for a reproductive evaluation and found to be reproductively sound.
  - (b)** Another mare may be substituted. The return breeding privilege will expire 24 months after the date of the first service to the mare named above.
- (7) Live foal guarantee:** should a mare not produce a live foal that stands and nurses the mare owner shall also be entitled to return breeding privileges. This privilege shall apply only if the stallion owner is notified by registered

mail within 48 hours of the foal's death. A statement of details by a licensed Veterinarian must follow within 10 days or the privilege becomes null and void. This clause is also binding in case of abortion.

- (8) limitations regarding stallion include: during times of greatest demand, there may be days when semen availability is limited and semen delivery may therefore be delayed. Should the stallion die, become unfit for service, be sold or unavailable due to uncontrollable circumstances, the stud fee will be refunded upon mare owner's written request. Upon refund of the stud fee both parties will be released from this agreement, which will then be null and void.
- (9) This agreement cannot be transferred by the mare owner in the event the mare is sold, leased or otherwise changes ownership after having been bred by semen from the stallion, thus there will be no right of return.
- (10) The mare owner agrees that if the breeding contract is not used within the next two subsequent years, the contract will be considered null and void, and all fees will be forfeited.
- (11) This agreement shall be interpreted in accordance with the laws of the State in which the stallion resides.
